Testable Components

useEffect

```
export default function FilterList({ onChange }) {  
  const [items, setItems] = useState([] as string[]);  
  
  useEffect(() => {  
    api.getPlanets().then(setItems);  
  }, []);  
  
  return (  
    <FilterListPure  
      .../>  
  );  
};
```

Demo

Filter list with API effect
